

# TEST PROJECT DOCUMENT FLORISTRY

WSC2017\_TP28\_actual

Submitted by:

Name: Johanna Kourusuo in co-operation with Hanne Heikkilä

Member country or region: WSI, UAE, and FI

## INTRODUCTION

These Test Projects are designed and based on the Floristry 28 Technical Description and WSSS. All materials need to be ordered and imported and therefore they need to be carefully thought and planned: In floristry there will be a very limited variety of accessories and containers.

All materials are planned according to the test projects and some “Arabic” elements are included: Architecture, Culture, Items.

In this competition there are four themes:  
Water, Wind, Sun, Sand

## DESCRIPTION OF PROJECT AND TASKS

### TEST PROJECTS

All the information for test projects will be given on C1, in the morning during explanation of the test projects, also for the experts.

There is a copy available for both the competitors and experts.

During this hour there will be some information and questions are also allowed.

All the information given is translated beforehand and you can use the translation for the test projects.

### SURPRISE PROJECTS

Some of the test projects will be surprise projects.

The information for the surprise items is given just before the competition time starts.

The information is sealed in an envelope and printed in english.

There is a set of words and sentences sent to your expert / translator beforehand.

Read carefully the information given and make your own translations.

The set is numbered.

You can use the numbers for translation.

There will be time reserved for the translation of the surprise projects.

It is not possible to ask any questions about the surprise projects.

## EQUIPMENT, MACHINERY, INSTALLATIONS, AND MATERIALS REQUIRED

The Competitors are asked to bring their own toolboxes. The content of the toolbox is listed at TD.

All other material comes from the Competition Organizer.
