Independent Test Project Validator: Pat Phillips SCM

# Instructions to the Competitor

It is not necessary to draw module 1 and 3 on the drawing board but you can draw it if you wish.

It will be necessary to draw Module 2 on the drawing board to develop the lengths and angles of the members.

Before you start to assemble the module, you **MUST** place the pieces together and inform the judges that it is ready for marking internal cuts.

Your waiting time is recorded.

## Other

If you are unsure of anything please ASK – we will be happy to answer your questions.

If it is something you should already know we will tell you.

If it is a technical question like a missing dimension, we will tell you and tell all the Competitors.

You have one hour to study the drawings then come back for questions.

Remember Health and Safety when working.
